## Summary

I am recent graduate of Coventry University, class of 2020 looking to start my career in web development. Offering my years of progressive experience in owning web-based projects from concept and design through testing, implementation, and client updates during my university years. Diligent about producing exceptionally clean, strong, and secure code. Successful at achieving browser, device and operating system compatibility objectives while satisfying client desires and producing robust, sophisticated designs.

## Experience

### **Student Web Developer**

- Built website content and designs using REACT, HTML and CSS.
- Contributed to team drafts of documents and projects to aid web management.
- Troubleshoot, tested and remedied issues before deployment.
- Created landing pages and web applications.
- Determined job priorities for projects and communicated sequencing, priorities, and timelines to entire team using Trello as our organiser.
- Redesigned sites to enhance navigation and improve visual appeal from feedback
- Reviewed information and elements regularly on websites and pages for accuracy and functionality.

## Projects

### **Freestuff – REACT, HTML, CSS | Node.js, MongoDB**

- E-commerce website
- User authentication
- API Request GET, POST, UPDATE and DELETE
